CIRCULAR

૧૯૦૧ ગાંધીનગર નોંધ

Subject: Recording of measurement in ERP along with physical MB

Preamble:

Enterprise Resource planning software is developed which contains Works Module.

In works module there is provision from initial conceptualization of the project till the completion.

In Works module, TSC and Board agenda are made functional and also tested and some schemes are approved. Also TPC agenda could also be forwarded through ERP. There is provision for writing measurement book in the ERP which is as simple as data entry in excel sheets.

Against each item there is the check box to enter the Measurement of the work. Measurement could not be written in future date, also once it is saved and proceeded for approval for payment, then the measurement could not be edited and changed.

To test the functionality it is necessary that measurement should be recorded in ERP so that any improvement suggested could be done parallel to other development of software.

Circular:

All the projects in which LoI is issued on or after 1<sup>st</sup> June 2021 shall start entering measurement in the ERP and process for recording in the physical Measurement book should be continued.

This should be enforced immediately from the date of this circular and no further payment should be certified till parallel process of measurement recording in ERP is done.

  
Chief Engineer
